Work Experience

Data scientist
SCOR - Singapore
June 2019 to Present

Development of a Machine/Deep Learning library for survival analysis with censored data in Python.

Research Internship in Optimization
Université de Reims Champagne Ardenne - Reims
June 2018 to August 2018

Parallel computing implementation of the genetic algorithm

Research Internship in Optimization
University of Petronas - Seri Iskandar
March 2018 to June 2018

Implementation of a genetic algorithm applied to the traveling salesman problem with optimization

Education

MSc in Data Science
ENSAE ParisTech - Paris, FR
2018 to Present

Master of Science in Statistics, Modelisations and Applications
Telecom SudParis - Paris, FR
September 2015 to August 2018

Skills

PRICING (Less than 1 year), PROJECT MANAGEMENT (Less than 1 year), Python Programming (2 years), tensorflow, R (2 years), Spacy, Dataviz, Bayesian statistics

Additional Information

Optimisation : OpenMP, CUDA 9,1, IntelXE
Presentation : Shiny, Markdown, LaTeX, Adobe creative suite
