Work Experience

Data Analyst
Great Eastern Life Insurance
January 2019 to Present

1. Integrated all the data from different source systems into a single source of data truth. Conducted constant UAT testing to ensure standardized data warehouse meets business requirements. Migrated multiple recurring campaigns and datamarts while standardizing several business definitions within the Analytics team.
2. Analyzed large sets of transactional data from new digital platform for agents conducting new business sales.
3. Built predictive models to predict the behavior of high-achieving insurance agents in rewards campaigns. Achieved a 75% accuracy rate.
4. Part of a task-force to educate business users on the value of analytics and asking the right business question.
